Family Fibre

How-to Guides

Create profiles and set content restrictions

1. Open the "**Profiles**" page in your Plume Home app and tap the + button.
2. Choose "**Person**" from the pop-up menu.
3. Type in the user's "**First name**" and "**Last name**".
   ○ (Optional) Tapping on the portrait lets you add a picture to the new Profile using your mobile phone's camera or picture gallery.
   ○ If you do not choose an image for the person's portrait, their initials will be displayed instead.
4. Under "**Personalize Protection**", choose the Content filtering and security features that will be applied to all devices assigned to that user.
   ○ Use the info button to learn more about each feature
5. Leave the **Invite to the Plume Home app** toggle in the "**Off**" position, then tap "**Add**".
   ○ If the Add button is greyed out, be sure a First and Last name have been entered.
